Deposit Information:

We require a 50% deposit with the delivery of your fiber. If you don't have a way to weigh your bags, you can estimate the weight by using an average of 2.5 lbs per fleece. Understanding that fleece weights vary, a 2.5 – 3 lb. fleece is pretty average. It may not be perfect, but it will get you an estimated weight. You can then calculate what your estimated 50% deposit should be depending on what services you are requesting.

Please keep in mind that there are many factors beyond our control that can affect the quality of your end product. We want to return to you the best quality product we can. Remember, skirting your fleeces and removing vegetation, stickers, and anything else that can negatively impact your final product will result in a better quality end product.

By signing this form, you are acknowledging that you have reviewed the price list and am aware of the prices and conditions for HLA Fiber Mill, LLC to process your fiber.

I authorize HLA Fiber Mill, LLC to process my fiber.
